

# Virtual **Community Open House Meetings**

## Meet the speakers:

**Emily Cutka**

Sr. Community Engagement Advisor  
Great Lakes Region

**Al Diaz**

Pipeline Operations  
Great Lakes Region

**Rachel Wellman**

Regional ER Specialist  
Great Lakes Region

# Safety & Values Moment

# About Enbridge

---

Delivery and Generation of North American Energy

# Enbridge Story

A leading  
energy delivery  
company in  
North America

# Delivery and Generation of North American Energy

## Energy Infrastructure Leader

**~25%**

of crude oil transported  
in N. America

**~20%**

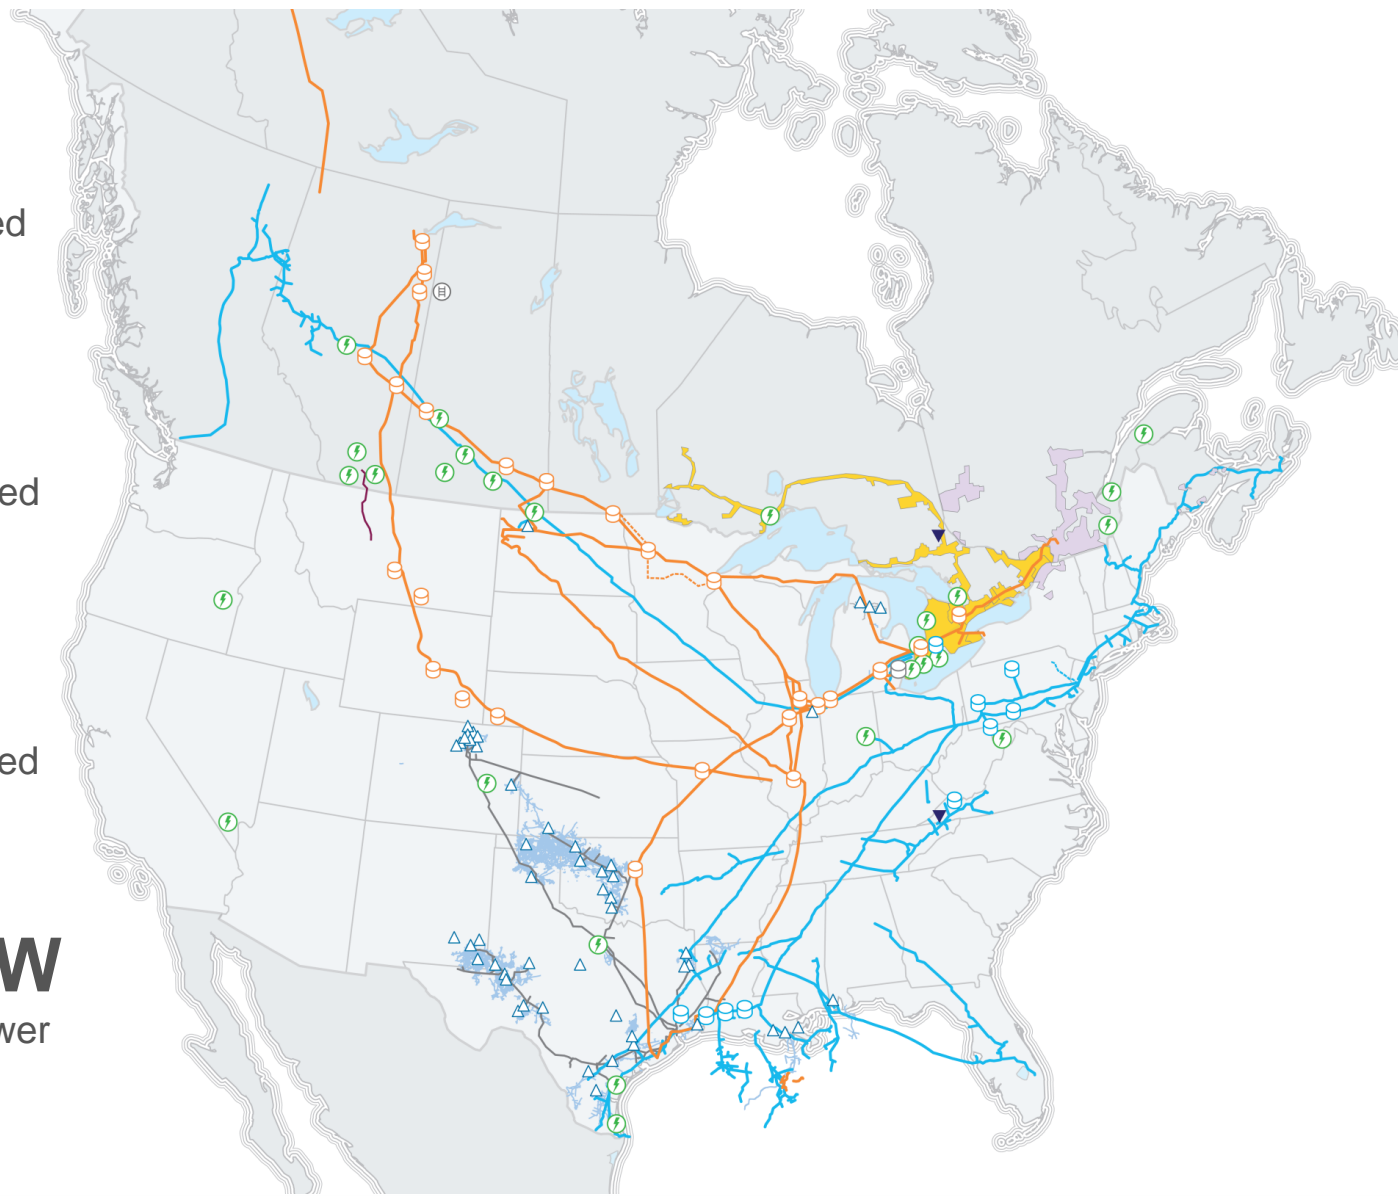

of natural gas consumed  
in the U.S.

**~2 Bcf/d**

of natural gas distributed  
in Ontario

**5,192+ MW**

of gross renewable power  
generation

Delivering Crude Oil to Midwest Market and Beyond

## Enbridge: A Vital Link to Energy Supply

Enbridge meets:

**~70%**

Refining demand  
in broader **Midwest**

# Uses of Petroleum and the Petroleum Products We Use

## Fueling Our Lives

### Household & transportation

### Energy inputs

### Everyday uses of energy

## Our Commitment to Being a Good Neighbor

# Community Investment

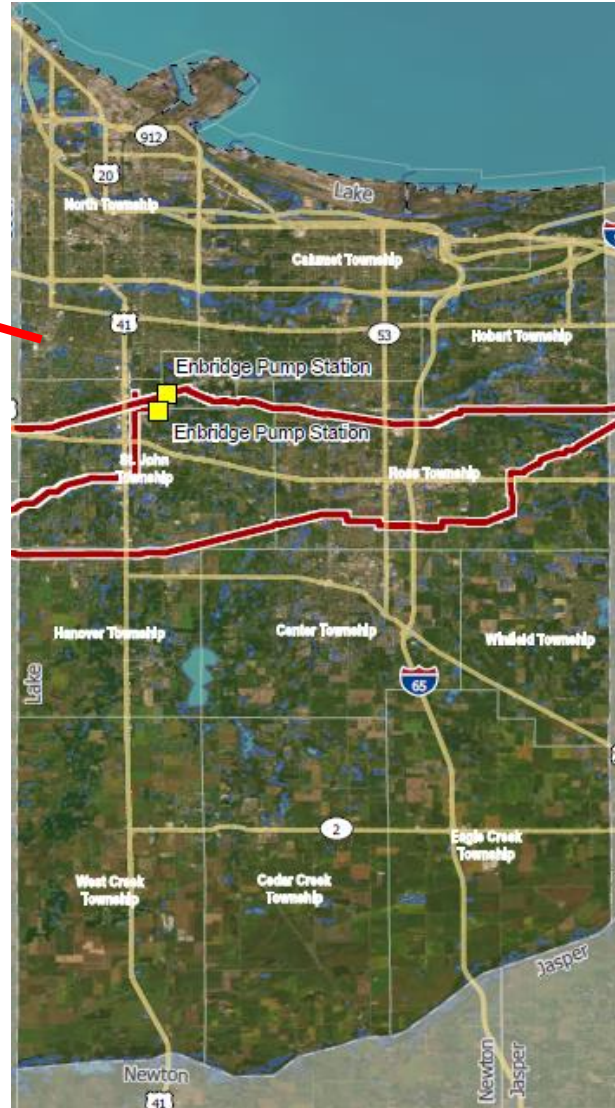

- **\$142,700**  
in community and safety strengthening initiatives across Indiana in 2022
- **\$43.6 Million**  
In operating and administrative expenditures in Indiana in 2022
- **\$10.135 Million**  
In property, corporate income and other taxes paid in Indiana in 2022
- **\$7.1 Million**  
total wages in 2022 to the 77 employees that live and work in Indiana

# Pipeline Operations, Safety and Maintenance

---

# Enbridge in Indiana- Lake County

- **4 pipelines** – energy to fuel vehicles, power industry and heat homes
- A 348-mile natural gas transmission pipeline system from Joliet, IL to Sarnia, ON with deliveries in Indiana.
- **Wildcat Farm-** A 202.5-megawatt (MW) wind farm is located near Elwood, IN. It includes 125 turbines. Enbridge has an 80% ownership interest in the Wildcat Wind Farm, which generates enough electricity to meet the needs of 57,800 homes (based on gross generation figures).

# Preventative Pipeline Maintenance

- High quality materials and anti-corrosion coatings
- Cathodic protection and pressure testing
- Inspection programs and preventative maintenance
- Monitoring pipelines and facilities, and maintaining a clear right-of-way

# The Safety of our Communities & Employees is our Top Priority

## Operational Excellence

- \$1.3B The amount we spent on programs that help us to maintain the fitness of our systems across our operations in the U.S. and Canada
- 225 drills, exercises and emergency equipment deployments.
- \$60 million spent on equipment and training since 2012

# Investing in Pipeline Safety and Operations

- Doubled the size of our Pipeline Control Systems and Leak Detection Departments
- Added staff and enhancing organizational structure at our Pipeline Control Center
- Significantly Enhanced our Public Awareness program
- Proactive and dynamic approach to pipeline integrity management

# Our Commitment to the Environment

## Planning projects with care

- Field survey crews
- Wildlife protection strategies
- Routing along existing corridors
- Consulting with Tribal Governments and groups

## Limiting the construction footprint

- Use existing routes to and from construction sites
- Minimal ground disturbance practices
- Minimize amount of temporary work space
- Wildlife protection initiatives
- Restricting access to project areas

## Our post-construction commitment

- Environmental monitoring programs
- Landowner consultations
- Habitat restoration techniques

The safety of people,  
and protection of the environment,  
is our top priority at Enbridge.

# Safety Begins with Public Awareness

---

# For Your Safety and the Safety of Others

## Call 811 Before You Dig

- 811 is a free, nationwide number designed to keep you safe when digging or excavating
- Calling 811 is a simple process and is always the safest option anytime you are moving dirt
- You can visit [call811.com](https://call811.com) to find out if online locate requests can be made for the state where you will be working.

**Know what's below.  
Call before you dig.**

***Did you know?*** It's never safe to assume the depth of pipelines.

- Pipeline depth can vary or change due to erosion, previous digging projects and other factors
- Some pipelines and related facilities may be located above the ground
- If a product is released from the pipeline, it could damage your property
- If the product released comes into contact with you or ignites, it could cause injuries or even death

## Safety Begins with Awareness

- Other products may also be transported by other pipeline operators in this area
- Product transported in the pipeline is always listed on any pipeline marker
- Familiarize yourself with the products and operators in your area

# National Pipeline Mapping System NPMS and Enbridge Resources

## National Pipeline Mapping System:

[www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov)

## Enbridge Land Services:

**Adam Depew**

Advisor, Lands and Right of Way

Phone: 219-864-5476

[Adam.Depew@enbridge.com](mailto:Adam.Depew@enbridge.com)

# What to Know About the Products We Transport

## Product Characteristics

### Crude Oil

- Unrefined petroleum
- Color can range from yellow to black
- Flows with the land profile
- Can be thick and slow moving or light and able to move quickly
- May contain hydrogen sulfide (H<sub>2</sub>S) and benzene

*An updated ERG is published every 4 years*

# What Do I Need to Know?

- You might see
  - Dead or discolored vegetation or snow
  - Colorful sheens on water
  - Stains or pools of hydrocarbons or liquids
  - Dirt being blown into the air
  - Fire coming out of the ground
  - Dead animals or insects
  - Construction or excavation equipment nearby
- You might hear
  - An unusual hissing or roaring sound along a pipeline right-of-way
- You might smell
  - An unusual rotten egg odor

# Reporting a Release and Obtaining Information

## What Do I Need to Know?

### To Report a Release:

- Call **911**
- Call Enbridge  
**800-858-5253**
- National Response Center  
**800-424-8802**
- EPA, Region 5 - IN  
**312-353-2318**
- Enbridge.com
- [www.facebook.com/enbridge](https://www.facebook.com/enbridge)
- Twitter: @Enbridge
- Or, [epa.gov/emergency-response/emergency-response-my-community](https://epa.gov/emergency-response/emergency-response-my-community)

If you can do so safely, turn off any mechanized equipment. Move as far away from the leak as possible in an upwind direction, avoiding contact with escaping liquids and gases.

# Emergency Response

---

# Response Planning with Federal, State and Local Interest

## **Planning Integration**

- Enbridge works closely with Federal, State and Local interests during:
  - Training
  - Exercises
  - Plan Development
- Incident Command System
- Unified Command

## Response Equipment **Prepared to Respond**

- Enbridge keeps spill response equipment in strategically placed caches throughout our pipeline system.
- In addition, we have contract agreements with federally certified response organizations, also known as Oil Spill Removal Organizations (OSROs), that can assist us in the event of a large spill.

## What to do if you suspect a pipeline leak:

- **Make sure you're safe**
- **Call 911**
- **Call Enbridge emergency response number**
- **Follow instructions provided**

## How to report a spill to Enbridge, NRC and the EPA:

- **Enbridge: 800-858-5253**
- **NRC: 800-424-8802**
- **EPA, Region 5 (IN): 312-353-2318**

## How do you obtain information:

- **Enbridge.com**
- **facebook.com/enbridge**
- **Twitter: @Enbridge**
- **epa.gov/emergency-response/emergency-response-my-community**
